REFINED CONSULTANCY FOR BRIGHTER SHIPS

DESIGN

At the conceptual and design phase, our team will provide you with **several technical solutions compliant with any of the applicable regulations**. We can also assist you in **optimizing your design** so it can reach your target at a **lower cost**.

COMMISSIONING

At the critical phase of delivering a ship, each **legal or technical detail** is important to take care of. We can either **assist you in this crucial tasks or manage them for you**.

LIFETIME OPTIMIZATION

Instead of scrapping ships nearing their end time, we can help you **assessing and implementing latest technologies to ensure an extended life of operations**.

This can be done by **assessing the conditions of your fleet**.

DECOMMISSIONING AND RECYCLING

When your ships arrive at the very end of their life, our experienced team can support you in **managing the sensitive operations of decommissioning them**.

Once this phase is done, we can either **assist you or manage for you the second life of the equipment still operable**.

CAPEX ASSESSMENT

Before committing your company for the development of your fleet or ship, you have to **ensure that the project is technically and financially on tracks**.

Our technical and financial experienced team will assist you **identifying and assessing potential risks and benefits at every step of your process**.

We will provide the **bespoke and solid consultancy you need to make reasoned investments decisions**.

SHIP BUILDING ASSISTANCE

During the building phase, we assist you in **optimizing your interfaces with shipyards, shipowner, suppliers or any other involved party flawlessly**.

SHIPS OPERATIONS ASSISTANCE

For ships in service, we help you in **preparing and optimizing your fleets in operations**. We can do it by **assessing continuously the compliance and the reliability of each of your ships, minimizing their downtime**.
